

willingness, and the best law of all laws is the one that impacts on those people that are being legislated for, and if they are supportive of wearing it, it is going to be a good law for them. I am asking you to be willing to come this far also and compromise by voting with us on this issue. I would give the remainder of my time to Senator Moore after I say to you that the cost of the program as far as we have been able to determine from information provided to us is now at \$170,000, and approximately \$70,000 of that fund will come from the motorcycle fund. So that leaves an additional \$100,000 to be made up in the General Fund, and I think that is a very, very, very small cost for all of us as taxpayers to support when we are talking about the concerns that we have in society for the high cost in dollars, death, accidents, and so on, and remembering that auto drivers create the greatest percentage of the accidents that do occur. I would like to relinquish the rest of my time to Senator Moore now. Thank you.

PRESIDENT: Senator Moore, please. You have six minutes.

SENATOR MOORE: Mr. President, members of the body, we all have heard this debate probably more than enough times. I don't know if there is much else I can say this morning. Senator Smith pointed out that this amendment is indeed a compromise. Would Senator Lynch answer two quick questions of me?

PRESIDENT: Senator Lynch, would you respond, please?

SENATOR MOORE: It should be simple. For the record, am I understanding right that you will not support this type of compromise, is that correct?

SENATOR LYNCH: I appreciate your asking me the question because I was hoping to get to the vote without having to go through lights and so, therefore, grateful to you. Yes, I cannot support this. It would mean nothing.

SENATOR MOORE: Okay.

SENATOR LYNCH: Can we explain why, or do you want....

SENATOR MOORE: No, that's...

SENATOR LYNCH: Okay, fine.
